Introduction to the Catalogue

In this catalogue we are pleased to introduce the general surgical instruments range available from Dentsy Instruments. Following feedback from customers we have prepared this as a standalone catalogue to allow for quick referencing and searching of our products required on a routine basis. The specialist ranges of our instruments are covered in the following additional catalogues available upon request.

About Dentsy Instruments

Dentsy Instruments is a privately owned medical technology company dedicated to innovation and excellence in the crafting of dental & surgical instruments. Based on customer demand over time our roots extended beyond a specialist in reconstructive surgery instruments and gradually expanded to one of the most comprehensive instrument range available in the industry today.

Why is Dentsy Focused on Instruments Quality?

Surgeons are highly talented and skilled individuals. They operate under significant time constraints and are required to make quick decisions while performing complex dental & surgical surgeries. At Densty we understand that in such a scenario the dental & surgical professional requires tools that are not just fit for the purpose but are reliable, dependable and crafted by a company that has track record for relentless pursuit for excellence in the manufacturing of dental & surgical instruments.

Dentsy Quality Standards

In European Union medical devices are subject to a series of uniform laws and the EC directive places rigid demands on surgical instruments. Dentsy Instruments is proud to claim that we have always surpassed the legal requirements to ensure that each instrument reaching the surgeons hand is indeed a testament to surgical craftmanship.

We are BS EN ISO 13485:2012/ISO 9001:2008 certified and CE approved to ensure compliance with the standard defined in line with medical devices directive 93/42/EEC.

Life Time Warranty

We encourage our customers to calculate lifetime costs prior to making purchase decisions and investing in surgical instruments.

Dentsy Instruments are guaranteed for life* against manufacturing defects of material and workmanship. This means we will repair or replace free of charge any surgical instrument that does not meet its functional requirements when used for its intended purpose and maintained properly.

- Dentsy Restorative Instruments
- Dentsy Surgical Instruments

About Dentsy Instruments

Dentsy Instruments is a privately owned medical technology company dedicated to innovation and excellence in the crafting of dental & surgical instruments. Based on customer demand over time our roots extended beyond a specialist in reconstructive surgery instruments and gradually expanded to one of the most comprehensive instrument range available in the industry today.

Why is Dentsy Focused on Instruments Quality?

Surgeons are highly talented and skilled individuals. They operate under significant time constraints and are required to make quick decisions while performing complex dental surgery. At Densty we understand that in such a scenario the dental professional requires tools that are not just fit for the purpose but are reliable, dependable and crafted by a company that has track record for relentless pursuit for excellence in the manufacturing of dental instruments.

Dentsy Quality Standards

In European Union medical devices are subject to a series of uniform laws and the EC directive places rigid demands on surgical instruments. Dentsy Instruments is proud to claim that we have always surpassed the legal requirements to ensure that each instrument reaching the surgeons hand is indeed a testament to surgical craftmanship.

We are BS EN ISO 13485:2012/ISO 9001:2008 certified and CE approved to ensure compliance with the standard defined in line with medical devices directive 93/42/EEC.

Life Time Warranty

We encourage our customers to calculate lifetime costs prior to making purchase decisions and investing in surgical instruments.

Dentsy Instruments are guaranteed for life* against manufacturing defects of material and workmanship. This means we will repair or replace free of charge any surgical instrument that does not meet its functional requirements when used for its intended purpose and maintained properly.

Abou-Rass Microsurgical Explorers

Dentsy™ microsurgical explorers come in various working ends to provide the clinician with useful options when treating simple or complex cavities. They have excellent balance and the resiliency practitioners need for careful yet thorough exploration. These explorers, and many of **Dentsy™** endodontic microsurgical instruments, were designed in conjunction with Dr. Marwan Abou-Rass.

Single Ended

ARMEEX2

Abou-Rass, Endodontic Explorer, Fig. 2

Used to enlarge the opening made by MAR-EX into the dortical bone to allow drainage.

ARMEEX5

Abou-Rass, Endodontic Explorer, Fig. 5

45O-angled explorer may be used to check dentinal defects, such as root caries, root resorption and fracture lines.

ARMEEX4

Abou-Rass, Endodontic Explorer, Fig. 4

Penetrates small osseous defect in cortical bone where MAR-EX1 is too large.

Micro Mini Pin &
Ligature Cutter

Designed to cut soft wire pins and ligature wires up to .012" (.30mm). Ultra slim profile is a plus in the most difficult to accessaries. Also available in long handle.

MMPL109

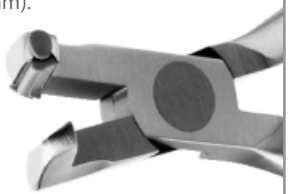
Micro Mini Pin &
Ligature Cutter 15°

Designed to cut soft wire pins and ligature wires up to .012" (.30mm). 15O offset tip with ultra slim profile is a plus in the most difficult to access areas.

MC110

Micro Cutter

Ligature cutter with reduced tip dimension. Designed to cut soft wire pins and ligature wires up to .012" (.30mm).



FCHD111

Flush Cut & Hold Distal End Cutter

Cuts and holds wire distally flush to the buccal tube or bracket while reducing debondings. Designed for all types of wire up to a maximum of .020" (.51mm).

Utility Pliers

WUP201S

Weingart Pliers

Versatile utility pliers with serrations. Tapered 32° angular design is convenient for placement and removal of archwires also available in long handle.

WUP201L

Weingart Pliers

Versatile utility pliers with serrations. Tapered 32° angular design is convenient for placement and removal of archwires also available in long handle.

SWUP202

Slim Weingart Pliers

Slim, tapered 20O tips with serrations offer greater access and verstility.

HSUP203

How Pliers, Straight

How utility pliers have serrated tips. Useful for placement and removal of archwires, pins and other auxilaries.

HAUP204

How Pliers, Angled

How utility pliers have serrated tips. Useful for placement and removal of archwires, pins and other auxilaries.

BSUP205

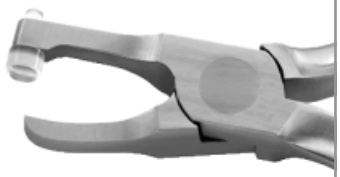
Band Seating Pliers

Serrated tips grip brackets to in placing bands,

ARUP206

Adhesive Removing Pliers

Reversible, replaceable blade is used to remove the bulk of composite material after deboding attachments.



PBRUP207L

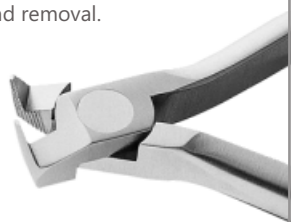
Posterior Band Removing Pliers-Long

The offset alignment of tip and acclusal pad is well suited for band removal.

PBRUP208S

Posterior Band Removing Pliers-Short

The offset alignment of tip and acclusal pad is well suited for band removal.



TBUP216

Tip Back Pliers

Designed to bend down the distal extension of an archwire protruding past the buccal tube. A unique contra-angle design allows for easy access and bending the wire intraorally. Available in long handle design for easy reach to the posterior buccal tube.

Dentsy® Instruments

Utility Pliers

FMSUP210

Force Module Separating Pliers

Use for placement of elastic separators.

CSLTUP211

Coon Style Ligature Tying Pliers

Most popular pliers for tying stainless steel ligature wires up to .015" (.38 mm).

STUP222

Steiner Tying Pliers

Ideal for tying stainless steel ligature wires up to .015" (.38 mm).

CBCUP221

Crown & Band Contouring Pliers

Slim Crown & Band Contouring Pliers. Designed for fitting of stainless steel crowns.

CBCUP221S

Slim Crown & Band Contouring Pliers

Slim Crown & Band Contouring Pliers. Designed for fitting of stainless steel crowns.

BRUP219

Bracket Removing Pliers

Works well for steel, ceramic and plastic brackets of all types.

ABRUP220L

Angulated Bracket Removing Pliers

High angle design in long handle is effective for removal of all bracket styles from anterior and posterior teeth.

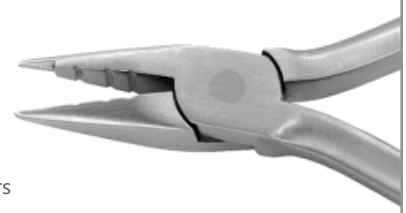
BCUP225

Band Crimping Pliers

Thin tips allow for easy access into molar and premolar bands.

Dentsy® Instruments

Wire Forming Pliers



JWFP301

Jarabak Pliers

Versatile light wire bending pliers. Grooves assist with precise bending and closing of loops. Serrated surface grip wires up to .020" (.51 mm).

TJWFP302

Three Jaw Pliers

Useful for contouring and bending wires up to .030" (.76 mm).

OLWFP303

Omega Loop Forming Pliers

Graduated cones .45", .060", & .075" (1.14mm & 1.91mm) are designed to form preise omega loops on wires up to .022" x .025" (.53 mm x 64 mm).

BBWFP304

Bird Beak Pliers

Versatile loop forming pliers for round wires up to .030" (.76 mm).

LBBWFPG305

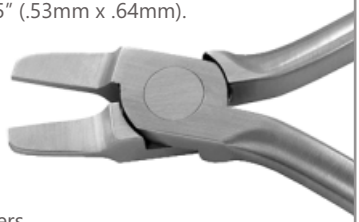
Light Wire Bird Beak Pliers With Groove

A longer cone than a standard bird beak is useful for forming precise loops in light wires up to .020" (.51mm). The groove allows for locating and duplicating loops.

TLWFP306

Tweed Loop Forming Pliers

Loop forming pliers with .045", .060" & .075" (1.14mm, 1.52mm & 1.91mm) diameters for creating bull and helical loops on wires up to .022" x .025" (.53mm x .64mm).



ABWFP307

Arch Bending Pliers

Designed for placing first, second and third order bends. .050" (1.27mm) blade width, on wires up to .022" x .025" (.53 mm x .64 mm).

TWFP307S

Tweed Pliers Slim

Designed for placing first, second and third order bends. .025" (.64mm) blade width, on wires up to .022" x .025" (.53 mm x .64 mm).

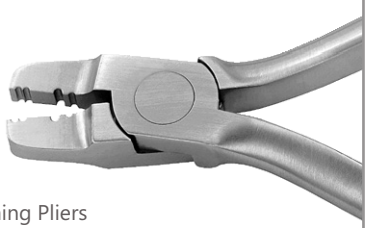
RABWFP308

Rectangular Arch Bending Pliers

Designed for placing first, second and third order bends. .070" (1.78mm) blade width, on wires up to .022" x .025" (.53 mm x .64 mm).

Dentsy® Instruments

Wire Forming Pliers



LAWFP309

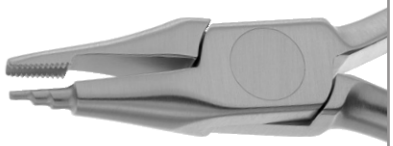
Lingual Arch Forming Pliers

Design to create double back and triple back bends in .030" (.76mm) and .036" (.91mm) lingual arch wires, up to .036" (.91mm).

HCCWFP310

Hollow Chop Contouring Pliers

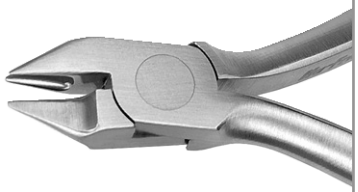
Perfect for subtle contouring of arch wires up to .030" (.76mm).



OBWFP311

O'Brien Pliers

For precise forming of small helical loops and intraoral tip back bends on wires up to .020" (.51mm).



MTJWFP312

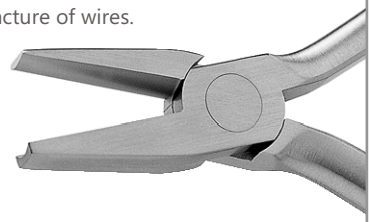
Mini Three Jaw Pliers

Tips are rounded for ease of contouring light wires up to .030" (.76mm).

MWLP316

Marcotte Looping Pliers

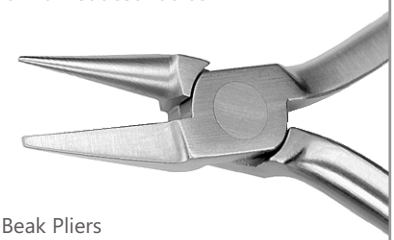
For precise forming of helical loops and T loops on wires up to .022" x .025" (.53mm x .64mm). No right angles.
Prevents stress fracture of wires.



HCWFP317

Hollow Chop Pliers

Same as 678-310 with reduced radius



LBBWFP318

Light Wire Bird Beak Pliers

Same as 678-305 without groove.

NLWFP319

Nance Loop Forming Pliers

For precise forming of loops in four lengths 3,4,5 and 6mm. Groove at base aids in closing loops. Wire capacity .022" (.53mm).

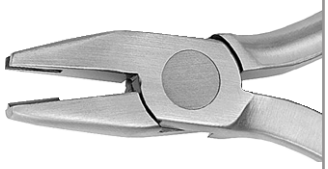
Dentsy® Instruments

Wire Forming Pliers

AWFP320

Adams Pliers

Excellent precise right angle bends and appliance adaptation. Wires up to .040" (1.01mm).



VSWFP321

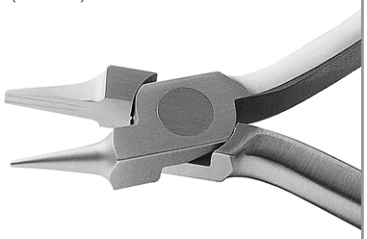
V-Stop Pliers

Places V Bend in archwires, including nickel titanium, to prevent archwire from traveling. Wires up to .022" x .025" (.53mm x .64mm)

NTPWFP222

NiT Three Prong Pliers

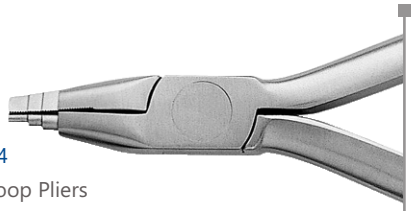
Designed for the forming and contouring of all archwire, especially for nickle titanium wires up to .020" (.51mm).



OPFP223

Optical Pliers

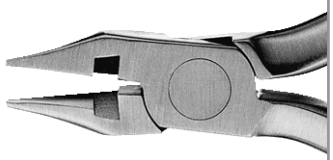
Excellent for forming helical closing loops and arch adjustments on wires up to .022" x .025" (.53mm x .64mm).



OSLWFP324

Old Style Loop Pliers

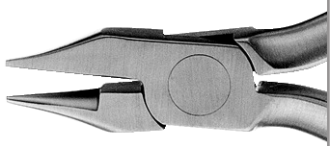
Provides optimum accuracy and precision in forming and closing loops with one cylindrical three-step beak and one triangular beak, on wires up to .022" x .025" (.53 mm x .64 mm).



BBWFPC325

Bird Beak Pliers with Cutter

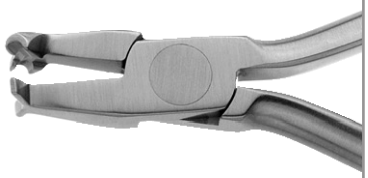
Smooth bending surfaces for a range of loop sizes while providing a sharp blade for cutting. Cuts up to .025" (.64mm).



LTBBWFP326

Long Tapered Bird Beak Pliers

Bends a variety of smooth loope up to .022" x .025" (.53mm x .64mm).



HNTBWFP327

Hammerhead NiTI Tie-Back Pliers

Multi-use bender for bending NiTi up to .025" (.64mm). Tie-Back NiTi with no heat.

Kramer-Nevins Periodontal Surgical Kit

The Kramer-Nevins modified Gracey curette series is designed for root planing and subgingival curetage. Features Slightly modified blade curvatures, thinner profiles, and extra length to help gain access to difficult areas without losing curette "Bite". Most commonly employed during initial presurgical preparation, and with all maintenance patients. Also extremely useful during surgery.

Unique combination of thin, knife-shaped blade with standard angled blade. Knife blade allow controlled, efficient manipulation of composite even in gingival areas. Application: Class III, iV, V

SSCAB2

Boghosian
Fig. Ab2

Used for measuring composite layers and shaping occlusal anatomy.

SSCW3

Fig. W3

Combination of medium sized blade with small condenser tip for universal adaptability. Ideal for placement, layering and general contouring. Application: Class I, II, III, IV, V

SSC8A

Use for packing gingival retraction cord, as well as to place and contour facial aspects.

SSCG4/5

Gregg
Fig. 4/5

Off-angled blades allow easy adaptability to mesial and distal surface of posterior teeth, providing increased interproximal access and better visibility of the working area. Application: Class II, V

SSGIPC

Interproximal Carver

Extremely thin flexible blades are opposed for easy handling of composite materials and interproximal contouring. Application: Class III, IV, V.

SSGIPCL

Interproximal Carver, Long

Used for placement of the composite increments against the cavity wall or adjacent tooth surface.

SSGA6

Fig. A6

Large, thin blades are opposed for adaptability to any situation, including veneers, where broad contouring or carving strokes are needed. Application: Class II, III, IV and V.

SSCCI

Contouring Instrument

Used for shaping of inclines, planes or developmental lobes for anterior and posterior restoration. The instrument has different angles of curvature on each end that provide a buccal and lingual orientation for posterior shaping or a facial and lingual orientation for anterior shaping.

Deep Reaching Apical Extraction Forceps

Used to extract teeth from alveolar bone.

Point of Performance

Thin, tapered and sharp parallel beaks improve root and crown contact and longitudinal serrations provide additional grip. The design of Apical Forceps facilitates an atraumatic tooth extraction.

PODIATRY INSTRUMENTS CATALOGUE

www.dentsy-instruments.com

Introduction to the Catalogue

In this catalogue we are pleased to introduce the PODIATRY instruments range available from Dentsy Instruments.

About Dentsy Instruments

Dentsy Instruments is a privately owned medical technology company dedicated to innovation and excellence in the crafting of dental & surgical instruments. Based on customer demand over time our roots extended beyond a specialist in reconstructive surgery instruments and gradually expanded to one of the most comprehensive instrument range available in the industry today.

Why is Dentsy Focused on Instruments Quality?

Surgeons are highly talented and skilled individuals. They operate under significant time constraints and are required to make quick decisions while performing complex dental & surgical surgeries. At Densty we understand that in such a scenario the dental & surgical professional requires tools that are not just fit for the purpose but are reliable, dependable and crafted by a company that has track record for relentless pursuit for excellence in the manufacturing of dental & surgical instruments.

Dentsy Quality Standards

In European Union medical devices are subject to a series of uniform laws and the EC directive places rigid demands on surgical instruments. Dentsy Instruments is proud to claim that we have always surpassed the legal requirements to ensure that each instrument reaching the surgeons hand is indeed a testament to surgical craftmanship.

We are BS EN ISO 13485:2012/ISO 9001:2008 certified and CE approved to ensure compliance with the standard defined in line with medical devices directive 93/42/EEC.

Life Time Warranty

We encourage our customers to calculate lifetime costs prior to making purchase decisions and investing in surgical instruments.

Dentsy Instruments are guaranteed for life* against manufacturing defects of material and workmanship. This means we will repair or replace free of charge any surgical instrument that does not meet its functional requirements when used for its intended purpose and maintained properly.

ENT Instruments Catalogue

Introduction to the Catalogue

Thank you for your interest in Dentsy Oral, Maxillofacial and ENT Instruments. We remain committed to providing the highest quality products and customer service.

In this special catalogue you will find a comprehensive range of Oral, Maxillofacial and ENT Instruments, which have been developed following detailed consultation with leading Oral, Maxillofacial and ENT surgeons. These instruments in conjunction with Dentsy General Instruments provides complete solution for oral, maxillofacial, otology, rhinology, rhinoplasty, tonsillectomy and tracheotomy surgeries.

We appreciate your patronage and look forward to a successful relationship with you.

About Dentsy Instruments

Dentsy Instruments is a privately owned medical technology company dedicated to innovation and excellence in the crafting of dental & surgical instruments. Based on customer demand over time our roots extended beyond a specialist in reconstructive surgery instruments and gradually expanded to one of the most comprehensive instrument range available in the industry today.

Why is Dentsy Focused on Instruments Quality?

Surgeons are highly talented and skilled individuals. They operate under significant time constraints and are required to make quick decisions while performing complex dental & surgical surgeries. At Densty we understand that in such a scenario the dental & surgical professional requires tools that are not just fit for the purpose but are reliable, dependable and crafted by a company that has track record for relentless pursuit for excellence in the manufacturing of dental & surgical instruments.

Dentsy Quality Standards

In European Union medical devices are subject to a series of uniform laws and the EC directive places rigid demands on surgical instruments. Dentsy Instruments is proud to claim that we have always surpassed the legal requirements to ensure that each instrument reaching the surgeons hand is indeed a testament to surgical craftmanship.

We are BS EN ISO 13485:2012/ISO 9001:2008 certified and CE approved to ensure compliance with the standard defined in line with medical devices directive 93/42/EEC.

Life Time Warranty

We encourage our customers to calculate lifetime costs prior to making purchase decisions and investing in surgical instruments.

Dentsy Instruments are guaranteed for life* against manufacturing defects of material and workmanship. This means we will repair or replace free of charge any surgical instrument that does not meet its functional requirements when used for its intended purpose and maintained properly.

EDITION 2018

Gynecology & Obstetrical Catalogue

Introduction to the Catalogue

Thank you for your interest in Dentsy gynecology and obstetrical instruments. We remain committed to providing the highest quality products and customer service.

In this special catalogue you will find a comprehensive range of gynaecology and obstetrical instruments, which have been developed following detailed consultation with leading gynecologists and obstetricians. These instruments in conjunction with Dentsy General Instruments provides complete solution for gynecological and obstetrical surgeries.

We appreciate your patronage and look forward to a successful relationship with you.

About Dentsy Instruments

Dentsy Instruments is a privately owned medical technology company dedicated to innovation and excellence in the crafting of dental & surgical instruments. Based on customer demand over time our roots extended beyond a specialist in reconstructive surgery instruments and gradually expanded to one of the most comprehensive instrument range available in the industry today.

Why is Dentsy Focused on Instruments Quality?

Surgeons are highly talented and skilled individuals. They operate under significant time constraints and are required to make quick decisions while performing complex dental & surgical surgeries. At Densty we understand that in such a scenario the dental & surgical professional requires tools that are not just fit for the purpose but are reliable, dependable and crafted by a company that has track record for relentless pursuit for excellence in the manufacturing of dental & surgical instruments.

Dentsy Quality Standards

In European Union medical devices are subject to a series of uniform laws and the EC directive places rigid demands on surgical instruments. Dentsy Instruments is proud to claim that we have always surpassed the legal requirements to ensure that each instrument reaching the surgeons hand is indeed a testament to surgical craftmanship.

We are BS EN ISO 13485:2012/ISO 9001:2008 certified and CE approved to ensure compliance with the standard defined in line with medical devices directive 93/42/EEC.

Life Time Warranty

We encourage our customers to calculate lifetime costs prior to making purchase decisions and investing in surgical instruments.

Dentsy Instruments are guaranteed for life* against manufacturing defects of material and workmanship. This means we will repair or replace free of charge any surgical instrument that does not meet its functional requirements when used for its intended purpose and maintained properly.
